

Fire Stick Installation Instructions

1) Start your FireStick and search for 'SMART IPTV' in the app store

#<https://play.google.com/store/apps/details?id=eu.siptv.video>

2) You must purchase the full version of the app;

Open app - Note down MAC ADDRESS

Head to siptv.eu/activation

Enter MAC ADDRESS and make payment (5EUROS)

3) Check the FireStick that the app is now a full version (7 day trial period will dissapear)

4) Using an internet browser, head to: siptv.eu/mylist

Under 'External Playlist' in the first field write in your TV MAC ADDRESS from earlier

In the second field enter your M3U Link (IPTV Link)

(You can enter several M3U lists by clicking the green +

Drop down EXUSSR - Change to your country (UK)

Confirm RECAPTCHA and click ADD LINK

Check '1 URL added' message appears and then switch off and back on your TV

Русский

Playlist upload to Smart IPTV

- Please use **UTF-8 (NO BOM)** encoding when editing and saving your playlist
- Use **Save online** only if you have problems loading playlist on your TV due to low memory
- Use **Disable logos** to ignore logos included in your playlist if they slow down the performance of the app

Upload your local IPTV playlist (5 MB file size limit)

MAC:

List: No file chosen

UK

Logos

☐ Save online

+

Add external playlist links (URLs), with auto-update
